I never got a bite.

"After Hurricane Ivan, my yard was filled with downed trees and limbs, but with even more mosquitoes... Even though it was very warm, i put on my insect shield shirt and pants and went to work. In 10 days of clearing my yard... I never got bit. I am a 65-year-old woman who can't contribute my ability to move trees to Insect Shield, but it sure didn't hurt."

Lynda Wagner of Florida, cleaning up after Hurricane Ivan
